FOR PRESIDENT IN 1888,

JAMES G. BLAINE,  
OF MAINE.Subject to the decision of the Republi-

above us and not below us."—James G.  
Blaine.Appointments for The Senate's Con-  
sideration.WASHINGTON, Nov. 29.—Among the  
appointments made by the President  
during the Summer to be sent to Con-  
gress upon its meeting next week are  
the following: From the Interior De-  
partment—Wm. Dougherty, Missouri;  
Indian Agent at Warm Springs, Or.;  
Jos. B. Lane, Indian Agent at Siletz,  
Or.; Jos. W. Preston, Indian Agent at

## The Confederate Debt.

WASHINGTON, D. C., Nov. 20.—Within  
the last few weeks inquiries have been  
made in certain quarters by persons  
holding high official positions in both  
England and Holland as to the probabili-  
ties of the United States Government  
assuming the Confederate debt. Any  
serious proposition to pay the Confed-  
erate debt cannot be conceived of, be-  
cause in the entirely improbable event  
of public sentiment in any section favoring  
such an idea, a direct and positive  
prohibition is the Fourteenth Amend-  
ment to the Constitution which stands  
in the way. It has been generally sup-  
posed that the bulk of the Confederate  
bonds were held in England, but this is  
not the case. The major portion is in  
the hands of investors in rich Dutch  
cities, and it is representatives of these  
interests who have been quietly making  
the inquiries above alluded to. The  
scheme, as proposed by them, was to  
submit an offer to take one-half of the  
amount of their bonds.

## Mortars for Coast Defenses.

WASHINGTON, Nov. 28.—Gen. Duane,  
Chief of Engineers of the War Depart-  
ment, said to the Post correspondent to-  
day: The experiments with twelve-inch  
mortars for coast defense have been  
very satisfactory. They have thrown a  
shell weighing 265 pounds a distance of  
more than five miles. We shall recom-  
mend that 742 of these mortars will be  
provided, of which 128 will be placed at  
San Francisco if Congress passes the ap-  
propriation. The estimates for the en-  
tire mortar defense for the country foot  
up about \$12,000,000.The retrial of James McCord for em-  
bribery went over in Judge Sullivan's  
Court Monday morning until the 5th of  
December next, and the sentence of J.  
D. Creighton, convicted of jury-bribing  
and who is supposed to be working his  
way down the coast of Mexico to South  
America, was set for January 6th next.A Lacrosse, Wis., dispatch of the  
28th says the ice stopped running in  
the Mississippi last night, and to-day  
the river is closed. This is the earliest  
ever known. The thermometer marked  
twenty degrees below zero last night.Polygamy is unnatural as well as un-  
lawful. It is a dangerous monopoly. In  
1880 there were 881,807 more males  
than females in this country.Senator Sherman announces his plat-  
form to be plenty of protection for the  
whole country and more reconstruc-  
tion for the South.The Grand Lodge, I. O. O. F., of Cal-  
ifornia will meet at Marysville, on Tues-  
day, December 13th.The New York Herald has increased  
its price from two to three cents.The Central Committee is delighted  
with the condition of the Ormsby Treas-  
ury. It will in a measure tide them  
over until the Railroad and Chinese  
hand out the election sack next Fall—  
although the expense of keeping their  
hangers-on in line is constantly increas-  
ing. There are too many George Camp-  
bellis for them to hope for any material  
relief—even through the aid of the State  
Prison.—Index-Union.

## THE LIFE-SAVING SERVICE.

What It Has Accomplished Since  
Its Establishment.WASHINGTON, November 28.—The annual  
report of General Superintendent  
Kimball of the Life-Saving Station shows  
that the establishment embraced at the  
close of the last fiscal year 218 stations  
as follows: One hundred and sixty-six  
on the Atlantic, 44 on the lakes, 7 on the  
Pacific and one at the falls of the  
Ohio at Louisville, Ky. The number of  
disasters to documented vessels reported  
within the field of station operations  
during the year was 332. On board  
these vessels were 6327 persons, of  
whom 6272 were saved and 55 lost.  
The value of vessels involved in the  
disasters was \$4,786,925, and that of  
their cargoes \$2,288,775, making the  
total value of property \$7,075,700, of  
which \$5,788,820 was saved and \$1,  
286,880 lost. The total number of ves-  
sels totally lost was 72. Besides the  
foregoing there were during the year 135  
casualties to smaller crafts, such as sail-  
boats, rowboats, etc., on which there  
were 274 persons, 271 of whom were  
saved.An unusual number of storms and the  
prevalence of fogs made the operations  
of the service more than commonly diffi-  
cult and dangerous, but nevertheless  
the station crews succeeded in saving a  
much greater number of lives and a  
larger amount of property than ever be-  
fore, in some instances performing feats  
of unparalleled enterprise and daring.A summary of statistics of the service  
from the introduction of the present  
system in 1871 to the close of the fiscal  
year shows the following: Total number  
of disasters, 3,652; total value of ves-  
sels and cargoes involved, \$65,549,779;  
saved, \$47,330,992; lost, \$18,218,787;  
total number of persons involved, 35,  
427; saved, 34,883; lost, 544. The loss  
of life, as stated above, includes 183  
persons lost at the wrecks of the steamers  
Huron and Metropolis and also 14  
other persons really not chargeable to  
the service, leaving the total number of  
lives lost during the sixteen years of the  
existence of the system only 317, out of  
over 35,000 involved.

## BOOMING DEPEW.

His Availability as a Candidate for  
President.NEW YORK, November 28.—The New  
York Sun says: Chauncy Depew has  
long been the informal nominee of the  
Republicans for the Presidency. Again  
and again in newspaper articles, public  
addresses and interviews, his name has  
been brought forward as that of the man  
who would make a powerful standard-  
bearer for the Republicans. His popu-  
larity, his versatility and the strength  
he shows in everything he undertakes  
or discusses; his broad views and  
patriotic spirit; his knowledge of the  
people and of the country, all have  
occurred to the minds of those who  
couple his name with the high office.  
Elihu Root, Chairman of the Republi-  
can County Committee, says: "He  
would be one of the many good candi-  
dates the Republican party has to offer.  
In my opinion Depew would make a good  
President. I do not know of any Re-  
publican who would not be in favor of  
Depew for the position." The Sun  
adds: Depew's great availability, how-  
ever, lies in the fact that he has no  
competitor among the Republicans for  
the labor vote in this State. No man  
in his party is his equal at addressing a  
labor meeting, or has in any like degree  
the power to touch the imaginations  
and sway the sympathies of the real  
working people. Beside, the Central  
Railroad is computed to be good for  
200,000 votes any day if Depew be the  
candidate. In the State of New York  
these are all-important considerations.

## A TREAT IN STORE.

The Greatest Living American to  
Visit California.CHICAGO, Nov. 29.—A Washington  
special to the New York Herald says:  
James G. Blaine is expected to reach  
San Francisco on his return to the  
United States on the 20th of June next.  
He will return via Japan. Five days  
after his arrival in San Francisco the  
National Republican Convention will be  
held. Blaine will remain in California  
until a nomination has been made.One of Mr. Blaine's party of managers,  
who is authority for the statement,  
says that the Maine statesman will be  
renominate practically without opposition.  
His presence in California will,  
it is believed, create so great a furor as  
to insure him a solid vote on the entire  
Pacific slope.The journey across the continent will  
be, according to the present programme,  
the greatest ovation ever accorded to  
any American statesman, excepting that  
of General Grant in 1879. Nebraska,  
Missouri, Kentucky, Ohio and New  
York will be visited by him en route to  
his home.Omaha wants the National Republi-  
can Convention. It is about time that  
Reno put in her bid for the Convention.

**TUSCARORA MINING NEWS**—An official telegram received from the Nevada Queen Tuesday says: Average pulp assay \$229 per ton. The mill is running all right. A telegram from the Commonwealth mine, received Tuesday morning, says: The main shaft has been sunk fourteen feet below the 100 foot level. The bottom is still in vein matter of the same character in which the ore development was made above on the 100 level. The average assay of rock in the bottom is \$22 per ton. Ore received at the mill for the week from the North Belle Iso, 73½ tons. Average assay value, \$204 45. Crude bullion on hand about \$12,000. The usual progress has been made on the 300 level, and the mine continues to look well. The stopes above the 150 level continue to look well at all points. No. 3 crosscut on the 70 foot level shows a width of about sixteen feet of vein and several strata of high grade ore. The mill was closed down one day the past week to clean the boiler. Fair progress has been made with the work on the kilns.

**NATURAL GAS**.—Of the coming attraction at the Nevada Theater next Saturday, the Cincinnati Enquirer says: "Natural Gas" made an immense hit at Henck's last evening, and no performance seen here in many a long day has given any better satisfaction. Craven Jobson Doddle ..... Gus Henessey Whitem O'Rourke ..... Eddie Girard Christopher Buff ..... H. V. Donnelly Nois E. Howell ..... John D. Gilbert

These are the names of the cast that would make anything go. Here it is:
